

Hogan Lovells Support During Regulatory Process

Comprehensive and Critical Assistance

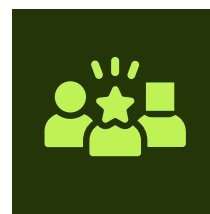

Regulatory Obligations

Comprehensive understanding of regulatory obligations and legal developments (e.g., developing NEPA issues in the D.C. Circuit and the Trump Administration).

Project Management/ Oversight

Assist with coordinating development of license and permit applications as necessary, including providing clear and accurate written materials that are consistent with regulatory requirements.

Corporate Structure

Experience developing corporate structure designed to satisfy legal requirements for deepwater port applications.

Legal Issues

Issue spotting and analysis to head off potential roadblocks to approval (e.g., pipeline integrity, 316(b), 401, 404, ESA, Jones Act, and Title VI).

Agency Interaction

Well developed relationships with key agency contacts essential to the deepwater port application process.

Respond to Data Gaps

Assist in responding to data gaps, follow-up requests, and other supplemental agency submissions.

Financial Responsibility

Assist with preparing comprehensive, detailed financial responsibility and assurance filings.

Respond to Public Comments

Evaluate and draft responses to significant public comments.
