

Complex Contracting

Contracts — the anatomy of business.

Your key relationships: from joint ventures to key suppliers. Your critical structures: from supply chain to sales and marketing channels. Your unexpected challenges: fitting no precedent.

Our focus. Strategic insight — the right structure. Technical skills — the right drafting. Negotiating success — the right approach.

We're highly knowledgeable, handling complex contracts every day. We're experienced, working across major industries, knowing their regulators, customers, and suppliers. We're global, a fully integrated team collaborating across our network — working daily with firms in other jurisdictions. We're highly rated by *Chambers*, *The Legal 500*, and others.

We're insightful, working with our colleagues to solve the toughest problems in areas like tax, IP, and HR. We're innovative, always breaking new ground and solving new problems. We're straight talking, giving jargon-free and impactful advice during C-suite briefings on complex issues.

Your most complex deals, making or breaking the value of your business. Our solutions. Hogan Lovells.
